Customer Behavior Analytics & Revenue Optimization Dashboard

Key Insight

- Loyal customers drive the majority of revenue → prioritize retention
- Subscribers represent a smaller share (~24%) but show strong revenue potential → increasing adoption can drive growth
- Discount usage (~40%) indicates margin risk → optimize pricing strategy

Expected Impact:

- +10% subscription growth → +12–15% revenue
- Reduce discount dependency → improved margins
- Strengthen loyalty → higher repeat purchases & lifetime value
